Fullstack software engineer with 8+ years delivering production software. Now focused on financial applications.

TARGET COMPENSATION

$160,000 – $200,000

OPEN TO WORK IN

Charlotte, Miami, New York

BASED IN

Greenville, South Carolina

Experience

Jul 2024 — Aug 2026

Founder & Owner / Prodigy Patios & Concrete

- Owned sales, estimating, scheduling and delivery for a residential construction business.
- Built an SEO-focused website to turn local searches into inbound leads.

Sep 2022 — Jun 2024

Senior Software Engineer / Shop-Ware

- Led the incremental Backbone.js to React migration on a 7-person engineering team.
- Delivered Ruby services and Postgres migrations, documented architecture and managed daily production deployments.

Skip to content

Jan 2021 — Sep 2022

Frontend Engineer / Bienabee

- Cut page load times from 20+ seconds to 2 seconds with flame graphs and Chrome DevTools.
- Built React and TypeScript features and Node.js APIs for multiple client applications.

May 2018 — Dec 2020

Frontend Engineer / ShipChain

- Built a React and Redux frontend for blockchain logistics tracking.
- Delivered a customizable theming layer with two cross-functional teams.

Aug 2016 — May 2018

Software Developer / Pretzel Labs

- Worked with the CTO on Progress, a construction-management application.
- Built Java Spring Boot endpoints and improved scrolling and lazy loading.
